

Kids Rock!

Dear Year 6,

We would like to take this opportunity to remind you that you are all wonderful. We know SATS feels like a big deal but there is so much more to you than whether or not you pass an exam.

SATS can't tell us how creative you are or how fast you can run. They don't measure your empathy, determination, kindness, or humour. You matter. You are important and as long you try your best, that is all we ask of you.

Best of luck next week - you've got this!

Out and About

Willows went on a coach with the Rowans class to Tring Museum this week. They had an amazing time walking around the galleries and seeing the huge amounts of animals from all over the world. Some of the children even used clipboards to write down the names of the animals they saw as they explored the museum.

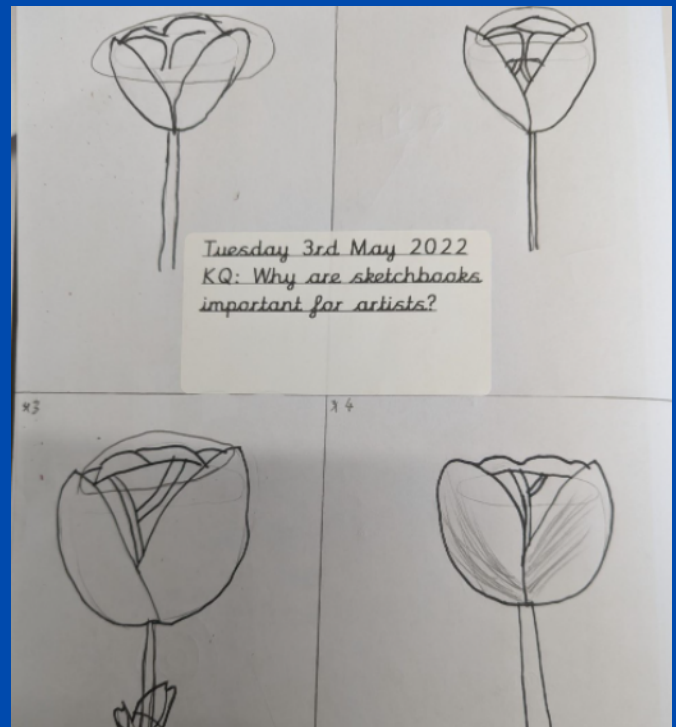

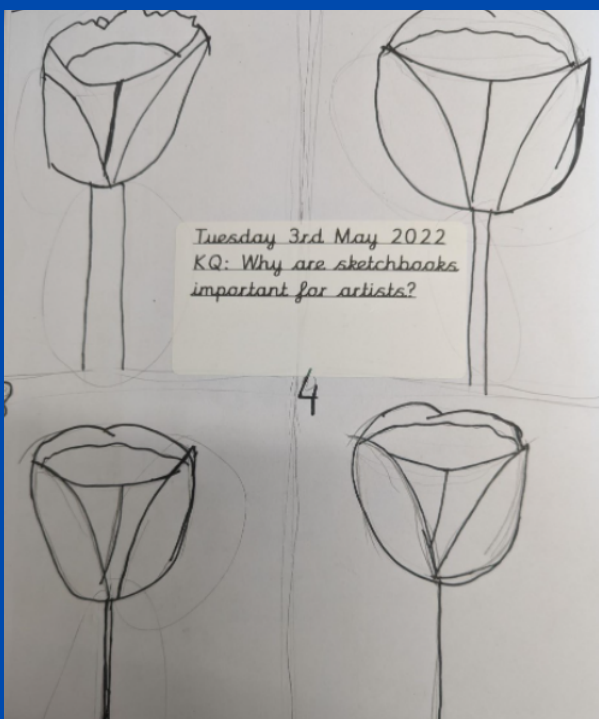

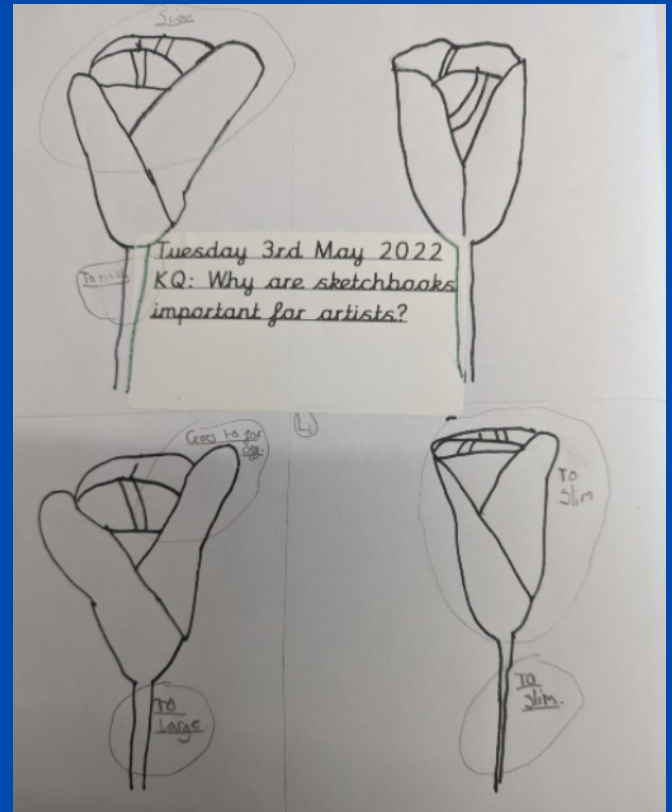

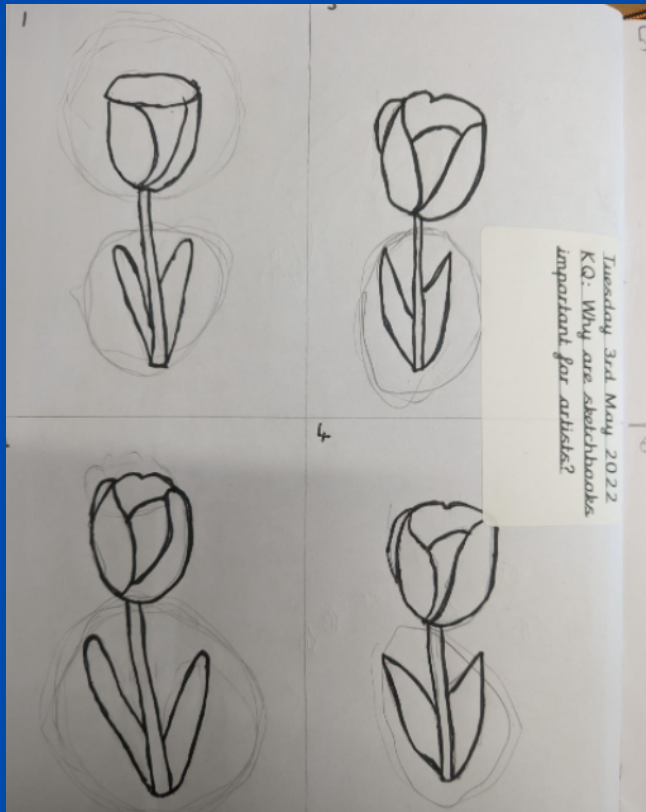

They all attended the Prehistoric Detectives workshop, where they had to identify various fossils and compare them to the pictures. It was a brilliant day out, and Mrs Foster was very proud of them all for their enthusiasm and excellent behaviour.

Henri Rousseau

In art this week, Silver Birches have been learning how to sketch. We used Henri Rousseau as our inspiration for art this term, and he often sketched plants he saw around him to use in his paintings. We first chose a tulip to draw and attempted to improve a certain aspect of it each time. Here are some of our results.

Spectacular Science

In Science this week we were learning about how our characteristics are inherited from our parents. We used the Mr Men to create offspring with similar features.
