

Kids Rock!

Dear Year 6,

We would like to take this opportunity to remind you that you are all wonderful. We know SATs feels like a big deal but there is so much more to you than whether or not you pass an exam.

SATs can't tell us how creative you are or how fast you can run. They don't measure your empathy, determination, kindness, or humour. You matter. You are important and as long you try your best, that is all we ask of you.

Best of luck next week - you've got this!

It's Coronation Day!

In preparation for the King's coronation this weekend, the children in Willows have been making their Union Jack flags. Observing the colours and the shapes on the flag, they either painted or made a collage, trying hard to include the white between the red and blue.

Out and About

This week, the Silver Birches had a brilliant visit to All Saints Church where we met Canon Stephen who told us why Pentecost is important to him and Christians. We also had the chance to look around the church and Stephen told us what different things were and about the history of the church.

On Thursday afternoon, the Silver Birches and Rowans looked at the late Queen's coronation and what is planned for King Charles' coronation on Saturday. We then created our own bunting and paper chains and have used them to decorate the school. We also had a competition, Griffins and Unicorns vs Dragons and Pheonix, as to who could make the longest paper chain! Dragons and Phoenix won, just!

Coronation Challenge

The Rowans had a fantastic time teaming up with the Silver Birches in their competition to make the longest coronation paper chain. There was some excellent team-work going on, everyone was excited to share what they had learned about the late Queen Elizabeth II and King Charles III.

The Rowans said that their favourite part of the paper chain competition was the suspense during the counting of the chains - each team had over 200 rings, but they worked together to count them quickly and carefully!

Coronation Colin Caterpillar

In DT Oaks class were challenged with designing and constructing a cake which was suitable for purpose - the King's coronation of course!

Pupils had to research designs, select materials and consider the instruments and techniques they would need to apply. We then evaluated our pieces considering what we did well and what we could improve on next time.
